Subject: RE: Results from the Bronllys Survey June 2016 re Bronllys Questionnaire

Hi Lydia,

Many apologies but I have had trouble with my E Mails and have only just read this one.

I haven't got a report sorted yet but will let you know the results of the questionnaires as follows:

54 questionnaires were returned and the results were as follows:

54 wanted to keep the existing facilities

43 wanted affordable housing

46 wanted sheltered housing

53 wanted care for older people

37 wanted renewable energy/solar park

44 wanted care for veterans

42 wanted workshops – health related

46 wanted open areas

49 wanted a market garden

Other comments were as follows:

Affordable housing kept for locals only.

More trees

Bus routes through from East to West Lodge

Mansion House used as Welsh Headley Court or half way house for veterans

Develop and must be sustainable. No carbon footprint (not as currently built by local builders)

Engage local community – old and new together through activities

Houses available to rent

Is there a Bronllys resident on the committee?

Mental health rehabilitation unit to prevent transfer of local out of area

Local use and employment

Nursing home

Enough affordable housing already

Land must not be idle

Site has tranquillity and natural beauty and should be kept for healing and aiding mental and physical well being.

Further ward or hospital.

Market garden not a priority

Fully support all the schemes – a positive expansion of health services already at Bronllys.

Centre for dialysis

Local community have the skills already to incorporate these developments for the current and future of community.

Hope this helps with your grant application.

Denise
